

New office building for Roche Group IT

Roche is planning to bring together approx. 1'300 employees of its in-house IT department on its site in Kaiseraugst. 4 new buildings will be built in a very short space of time. The construction work began in the 1st quarter of 2015. The goal of this "fast track project" is to hand over the first two buildings ready for use at the end of 2016. Emch+Berger AG Gesamtplanung Hochbau Basel will be in charge of the project after the conceptual design phase as general planner.
